You are Invited to Participate in a Study about a Wearable Exoskeleton

Requirements:

- Male or Female, age = 18-55 years
- Have no current or recent history of musculoskeletal disorders

Experiment Details:

- You will be asked to perform simulated assembly tasks (e.g., manual drilling and wiring), both with and without an upper-extremity exoskeleton.
- Two experimental sessions (~3-4 hour long) are required to complete the study.
- Compensation: $10/hour

Research protocols have been approved by the VT IRB #16-520

If interested, please call or email Saad Alabdulkarim at iesaad@vt.edu (206-859-9146)
