

Recognition of Excellence Fund Donors

To recognize donors to the Excellence Fund, we commissioned a sculpture, located just outside the ISE main office in Durham Hall. Names of our donors at each of the following levels appear on plaques within the sculpture:

- Benefactors (giving at least \$5,000 annually)
- Patrons (giving at least \$1,000 annually)
- Sponsors (giving at least \$250 annually)

All donors at any amount are also recognized in our alumni newsletter.

How to Give to ISE

There are several ways to make a donation to ISE, including making a gift toward an existing pledge.

- Gifts can be mailed by check to the ISE Department; check should be made out to “**Virginia Tech Foundation**”. Gifts to the Excellence Fund should include “**860130 ISE Department Excellence Fund**” in the memo line.
- You can use a secure online pledge form to make a gift using your credit card. The instructions are available at <http://ise.vt.edu/about/giving/instructions.html#online>. A link designating your gift to the Excellence Fund can be found there.
- You can request an EFT form from VT Gift Accounting (800-533-1144) for donations from your checking account.
- You can also request information on donating securities.

Please check with your HR or Personnel Department to see if your company provides matching gifts. This is a great way to make your gift go further!

Letter From Interim Department Head

Dear Alumni and Friends,

On behalf of the students, staff, and faculty in the Grado Department of ISE, I would like to thank each of our donors for your generosity. We simply could not provide the opportunities for students that we do without your financial support. We have many ambitious goals and your help will be even more critical in the future.

Please come by the ISE main office for a visit whenever you are next in Blacksburg!

With warm Hokie regards,

Opportunities for Giving

Grado Department of
Industrial & Systems Engineering
University Exemplary Department

Giving to ISE at Virginia Tech

The Grado Department of Industrial and Systems Engineering at Virginia Tech is one of the world's leading ISE departments. Although we do receive funding from the Commonwealth of Virginia, the funds provided are simply not sufficient to support the goals and activities of a top engineering department. Thus, we depend on the generosity of our friends and alumni to support our education, research, and outreach mission.

Giving to ISE at Virginia Tech helps us in many ways:

- Providing student scholarships & fellowships
- Supporting student professional development and leadership opportunities
- Enabling us to offer courses in emerging areas
- Supporting faculty and staff professional development
- Helping us develop and maintain state-of-the-art research facilities
- Recruiting and retaining excellent students and faculty.

In short, your giving helps us to remain competitive, to further build excellence, and is vital to our success.

Giving to the Excellence Fund

In order to provide flexible funds to support a variety of needs, the ISE Department established a permanent endowment fund in 2007 called the **Excellence Fund (EF)**. Gifts to the EF are not spent in the current year but are invested through the VT Foundation. The ISE Department spends only the associated earnings from this investment each year—thus, the EF provides a means to invest in the future. With the EF, we seek to create a culture of giving. This fund has steadily grown and now generates about \$25,000 each year that we can use for activities not possible through state funding. The EF remains our greatest priority for giving.

In recent years, EF earnings have been used to support students. For example, this past year, the EF made possible the following:

- Travel and registration costs for 55 ISE students to attend regional, national, and international conferences
- Sending all 177 new sophomores on chartered buses to one of four plant/facility tours as part of the Intro to ISE course
- Support for the ISE Ambassador Program (30 members - shown above), Institute of Industrial and Systems Engineers (165 members), and Alpha Pi Mu (70 members) - see holiday party below for student leaders.
