## IT Consultants and Web Developers – Washington, DC

Summary: Working alongside solution consultants and project managers, this position will serve as **technical consultant, configuration expert, and developer**. In charge of the implementation and maintenance of IVALUA applications in big corporations, our team of IT consultants and developers will have the responsibility of **on-time delivery, quality controls, and 2<sup>nd</sup> level support** for **strategic projects**. Customer site visits for meetings and workshops will be required once or twice a month on average.

### Your role:

- **Functional and technical design:** take part in design workshops, design user interfaces, **system interfaces** and reporting on IVALUA platform; take part in functional and technical specifications.
- End to end **implementation, test and delivery** of the designed solution. Most of the implementation is done through **online configuration of the IVALUA cloud solution**, but some projects require development based on **C# and SQL Server**.
- Manage the maintenance cycle of projects in production, including 2<sup>nd</sup> level support, problem identification and resolution.

### Your profile:

- Graduate from an **IT engineering school or university**
- **Proven experience** in web application **design and development**, preferably on Microsoft or Java technologies
- A keen understanding and interest in **project management** processes, customer relationship and business analysis
- **Rigorous, exacting** and independent.
- Excellent communication and analytical skills.
- Strong technical skills, esp. on SQL, system interfaces and web development

### Your skills:

- **Software design** (needs assessment, use cases, UX/UI)
- **Object programming, SQL, HTML, C#, Asp.net, Analysis Services**
- **Project methodology** (V cycle, CMMI, agile, ...) and experiences of client relationships
- Strong analytical and reporting skills
- Proficiency in Microsoft Office (Word, Excel, Powerpoint, MS Project)
- **Perfect English**, clear and well-structured expression and writing
