

Moog Inc. is a worldwide designer, manufacturer, and integrator of precision control components and systems. Moog's high-performance systems control military and commercial aircraft, satellites and space vehicles, launch vehicles, missiles, automated industrial machinery, wind turbines, marine and medical equipment. The work we do matters here in Blacksburg, VA, as does every single person who works with us.

Engineering Assistant (Part-Time)

Blacksburg, VA

- **Imagine** working alongside people who love tackling difficult and interesting challenges and who respect your contribution to the team.
- **Imagine** an enterprise where a belief in personal accountability continues to drive groundbreaking innovation and global growth.
- **Imagine** working for an organization dedicated to helping you live the life you want—inside and outside of work.

Moog Inc. in Blacksburg, VA is looking for an ambitious, detail oriented, and responsible Part-Time **Engineering Assistant** in the Motors department.

Here's what you can expect in this role:

- Perform various engineering related functions including work associated with industrial engineering topics in support of our continuous improvement activities
- Perform time studies, data analysis and a variety of other tasks in support of Lean Activities and projects
- Administrative tasks, such as data entry and computer based activities
- Coordination with the office environment as well as colleagues on the factory floor will be required
- Daily teamwork activities in a fast paced environment
- Gaining experience in Lean, Continuous Improvement and Six Sigma topics

Here's what you will need to be part of the team:

- An Associate's degree in electronics or a related field of study
- Experience with schematics, blueprints, and related test procedures
- Ability to work with area Engineering to support current and new product lines, as well as working with production floor employees
- Strong communication skills, both verbal and written
- Strong analytical, technical, and trouble shooting skills
- Knowledge and experience in Lean, Continuous Improvement and Six Sigma is a plus

You can do this!

Moog is a performance culture that empowers people to achieve great things. Our people enjoy tackling interesting technical challenges in a culture where everyone trusts each other to do the right thing. For you, working with us can mean deeper job satisfaction, better rewards, and a great quality of life inside and outside of work.

**U.S. citizen or permanent resident status is required.
